

LOG MIDSUMMER MADNESS 2010

LINCOLNSHIRE CHALLENGE SHIELD

SCORING

Each club will provide a 'team' to the event, with scoring to be based on a summation of overall times from the team members across a number of categories. As many members as possible can run at the event, with the top 10 from each team to count, with contributions from the following classes and a minimum of two females to count to the overall team total:

- 1) *Juniors* - max 4 to score from M/W20 down, including at least one female
- 2) *Seniors* - max 4 to score from M/W21 - M/W45, including at least one female
- 3) *Veterans* - max 4 to score from M/W 50+, including at least one female

Each individual score will be based on the summation of the total times from both the prologue and chase, ie. 17:34 (Prologue) + 15:43 (Chase) = 33:17. Disqualification in either the prologue or chase will result in the individual being ineligible for inclusion in their team's final total.

The club with the lowest overall time from their top 10 scorers is to be announced as the winner of the LCC.
